MONOKEY K53

7197

A Monokey top-case able to satisfy the requirements of those who need to travel with considerable baggage (the name corresponds to the capacity in litres of the top-case). K53 has strong lines, partly due to the two lateral reflectors. Considering its dimensions, the K53 is recommended for motorcycles and maxi scooter owners. The basic version is black embossed, and it can be equipped later with the painted cover, item KC53, produced in a large range of colours. It is equipped with clear reflectors.

MONOKEY SIDE K33N

This new side case is equipped with the revolutionary Monokey Side mounting system. The innovative high-tech aspects of this “new entry” can be summarized as follows:

- The addition of two new mounting points to the system used so far, positioned so as to obtain a considerable increase in safety, resulting in higher stability of the case on the motorcycle.
- Reduction of the overall side encumbrance by inclining the support and use of a new profile for the bottom-shell of the K33N case, thus closely following the lines of the fairing of the motorcycle and therefore considerably improving the aerodynamic aspect.
- K-ROAD has a capacity of 33 litres and won’t change the motorcyclist’s habits and will continue to offer ease of use, as the case is still able to be opened/closed and attached/detached with one key + push button.

FIXED K25

7217

It is a new concept of hard cases for scooters. It was born from the growing demand of European markets for a product at entry level, able to offer the same quality and functional characteristics.

To achieve this result, Kappa has has created a Top Case with an integrated bottom, equipped for stable mounting on all those scooters that are equipped with a rack.
